

Year 6 SATs 2025 Presentation for Parents, Carers & Guardians

What are the SATs?

- SATs are the Standardised Assessment Tests that are given to children at the end of Key Stage 2.
- The SATs take place over four days, starting on Monday 12th May ending on Thursday 15th May.
- The SATs papers consist of:
 - Grammar, punctuation and spelling (paper 1: GPS) Monday 12th May
 - Grammar, punctuation and spelling (paper 2: Spelling) Monday 12th May
 - Reading Tuesday 13th May
 - Maths (paper 1: Arithmetic) Wednesday 14th May
 - Maths (paper 2: Reasoning) Wednesday 14th May
 - Maths (paper 3: Reasoning) Thursday 15th May
- Writing is assessed using evidence collected throughout Year 6. There is no Year 6 SATs writing test.

The key stage 2 tests will be taken on set dates unless your child is absent, in which case they may be able to take them up to 5 school days afterwards.

When and how the SATs are completed

- The tests take place during normal school hours, under exam conditions.
- Children are not allowed to talk to each other from the moment the assessments are handed out until they are collected at the end of the test.
- After the tests are completed, the papers are sent away to be marked externally.
- The results are then sent to the school in July.
- Each test lasts no longer than 60 minutes:
 - Spelling, punctuation and grammar (paper 1: Grammar/ Punctuation) 45 minutes
 - Spelling, punctuation and grammar (paper 2: Spelling) 15 minutes
 - Reading 60 minutes
 - Maths (paper 1: Arithmetic) 30 minutes
 - Maths (paper 2: Reasoning) 40 minutes
 - Maths (paper 3: Reasoning) 40 minutes

Specific arrangements for SATs

Children with additional needs (who have similar support as part of day-to-day learning in school) may be allotted specific arrangements, including:

- Additional (extra) time;
- Tests being opened early to be modified;
- An adult to scribe (write) for them;
- Using word processors independently;
- An adult to read for them (including a translator);
- The use of prompts or rest breaks;
- Arrangements for children who are ill or injured at the time of the tests.

Pupils with an EHCP are automatically allowed up to 25% additional time (except for the spelling paper, which is not strictly timed). Pupils who use the modified large print or braille versions of the tests are automatically allowed up to 100% additional time.

The results

Tests are marked externally. Once marked, the tests will be given the following scores:

- A raw score (total number of marks achieved for each paper);
- A scaled score (see below);
- A judgement on if the National Standard has been met.

After marking each test, the external marker will convert the raw score to a scaled score. Even though the tests are made to the same standard each year, the questions must be different. This means the difficulty of the tests may vary. Scaled scores ensures an accurate comparison of performance over time.

Scaled scores range from 80 to 120.

A scaled score of 100 or more shows the pupil is meeting the National Standard.

Grammar, Punctuation and Spelling: Monday 12th May

Grammar, punctuation and spelling consists of two papers.

- Paper 1 focuses on all three elements (grammar, punctuation and spelling or GPS).
 The paper lasts for 45 minutes.
- Paper 2 consists of a spelling test only. It should take approximately 15 minutes, although this is not a set amount of time (pupils should be given as much time as they need to complete the test).

Grammar, Punctuation and Spelling: Paper 1 (GPS)

The children will have been working hard with their class teacher on developing and securing their knowledge of the technical vocabulary needed in this test.

This test focuses on:

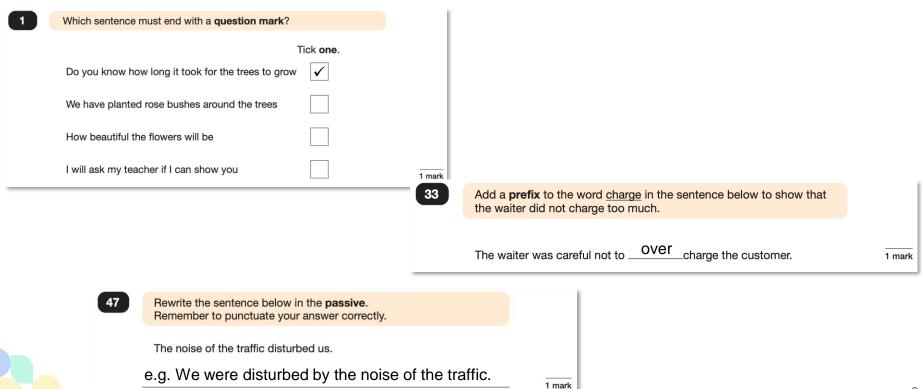

- Grammatical terms/ word classes;
- Functions of sentences;
- Combining words, phrases and clauses;
- Verb forms, tenses and consistency;
- Punctuation;
- Vocabulary;
- Standard English and formality.

This test requires a range of answer types but does not require longer formal answers.

Grammar, Punctuation and Spelling: Paper 1 (GPS)

Example questions:

Grammar, Punctuation and Spelling: Paper 2 (spelling)

Paper 2 is a shorter paper that focuses solely on spellings.

Example questions:

Spelling

- 1. Our dogs are _____ and full of energy.
- 2. The swans nested on an _____ in the lake.
- **3.** We met a _____ writer.

2024 Spelling script

Spelling 1: The word is **young**.

Our dogs are **young** and full of energy.

The word is young.

Spelling 2: The word is island.

The swans nested on an **island** in the lake.

The word is island.

Spelling 3: The word is **famous**.

We met a **famous** writer.

The word is famous.

Reading: Tuesday 13th May

There is one reading test that lasts for 60 minutes.

The test is designed to measure if the children's comprehension of age-appropriate reading material meets the national standard. There are three different set texts for children to read. These could be any combination of non-fiction, fiction and/ or poetry.

The test covers the following areas (known as Content Domains):

- Give/ explain the meaning of words in context;
- Retrieve and record information/ identify key details from fiction and non-fiction;
- Summarise main ideas from more than one paragraph;
- Make inferences from the text/ explain and justify inferences with evidence from the text;
- Predict what might happen from details stated and implied;
- Identify/ explain how information/ narrative content is related and contributes to meaning as a whole;
- Identify/ explain how meaning is enhanced through choice of words and phrases;
- Make comparisons within the text.

The reading SATs paper requires a range of answer styles.

Example questions:

2 Read the paragraph beginning: They are not hedgehogs...

Find and copy one word that means the same as 'met'.

1 mark

Madagascar is an island country in the Indian Ocean, off the coast of East Africa. It is well known for its range of weird and wonderful wildlife.

Imagine treading through the rainforest in Madagascar and noticing hurried movements in the plants below you. You creep forward to investigate. Suddenly, you see a group of animals unlike anything that you have seen before. Ten of them are sniffing along the ground with long, pointy snouts that look almost like bird beaks. The creatures are quite small – maybe the size of a pet hamster. Their bodies are round and covered with spines like a hedgehog. They are brightly coloured like a bumblebee with yellow streaks running down their backs and legs. On their heads, each of the animals has a crown of bright yellow spikes.

They are not hedgehogs, birds or bumblebees, even if they look like a confused hodgepodge of these animals. You have encountered a family of lowland streaked tenrecs. They are one of many species of tenrecs living in Madagascar.

Read the paragraph beginning: They are not hedgehogs...

Find and copy one word that means the same as 'met'.

Content domain: 2a – give or explain the meaning of words in context

Award 1 mark for:

■ encountered.

Example questions:

9 Look at the section: What issues are streaked tenrecs facing?
What serious problems are streaked tenrecs facing?
Give two problems.

Content domain: 2d – make inferences from the text or explain and justify inferences with evidence from the text

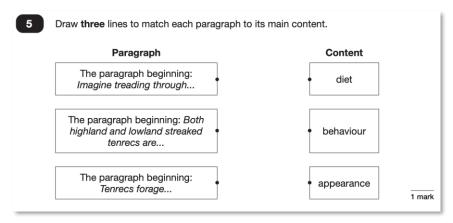

Award 1 mark for reference to any of the following, up to a maximum of 2 marks:

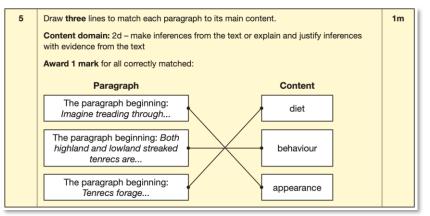

1. deforestation / the destruction of streaked tenrecs' habitat, e.g.

• deforestation destroys their habitat

• tenrecs live in the rainforest and it's being destroyed

• the landscape is being destroyed.

Example questions: 3 mark question

Look a	at the whole text.	
	three pieces of evidence that show Ned was nervous about Louie's upe walking.	
1		
-		
2		
-		
3		
-		3 ma

Qu.	Requirement	Mark
26	Look at the whole text.	Up to
	Write three pieces of evidence that show Ned was nervous about Louie's tightrope walking. Content domain: 2d – make inferences from the text or explain and justify inferences with evidence from the text Award 1 mark for reference to any of the following up to a maximum of 3 marks:	
	1. the quotation, You ain't getting up on that?	
	2. the quotation, It isn't safe, Louie / You can't just get up on the rope and, e.g.	
	he told her that it wasn't safe for her	
	 he wasn't sure that it was safe for her to be on it. 	
	3. the quotation, It's a proper skill / It takes years of practice, e.g.	
	 he pointed out it takes years to master 	
	he thought she needed more practice.	
	4. the quotation, Shouldn't I stay here? / Just in case you fall?, e.g.	
	he thought she would fall	
	he wanted to stay beneath the rope incase she falls	
	he offered to help if she fell	
	he was asking if he should stay there	
	 he hesitated to move – thinking she would fall. 	
	5. the quotation, Ned breathed in sharp.	
	Do not accept reference to the quotation, You better come down.	
	Do not accept reference to the quotation, He thought it was all one big prank.	

Since the current testing formation for the SATs began in 2016, there has been a tendency for three types of questions to be the most popular.

In the 2024 Reading SATs paper,

- 10% of marks could be gained from answering questions involving giving and explaining the meaning of words in context;
- 38% of marks could be gained from answering questions involving retrieving and recording information or identifying key details from a text;
- 44% of marks could be gained from answering questions involving making inferences from a text and justifying inferences with text evidence.

When reading with your child at home try focusing on these types of questions.

Maths: Wednesday 14th May and Thursday 15th May

The maths assessments consist of three tests.

- Paper 1: Arithmetic (30 minutes) Wednesday 14th May
- Paper 2: Reasoning (40 minutes) Wednesday 15th May
- Paper 3: Reasoning (40 minutes) Thursday 15th May

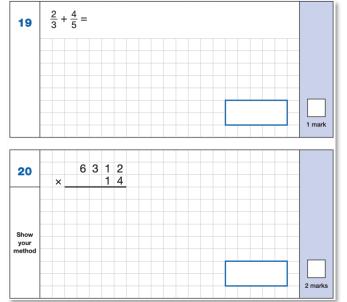

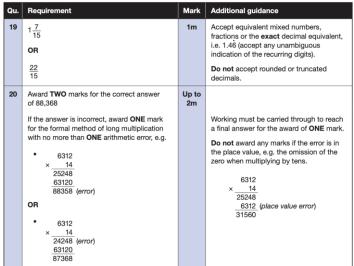

Maths Paper 1 (Arithmetic)

The maths arithmetic paper has a total of 40 marks and lasts for 30 minutes.

The test covers the four operations (addition, subtraction, multiplication, division, including order of operations requiring BIDMAS), percentages of amounts and calculating with decimals and fractions.

Example questions:

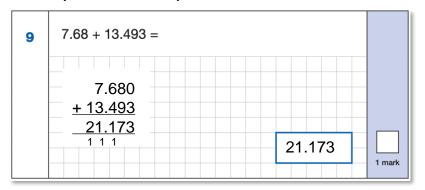

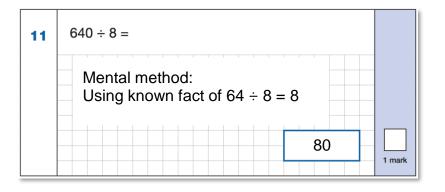

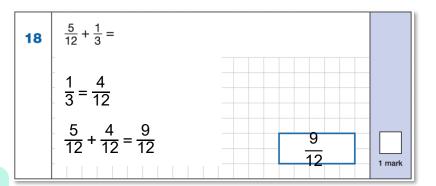

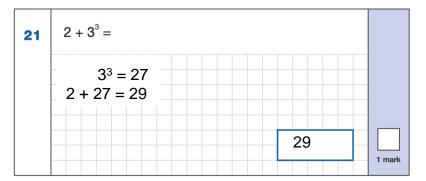

Maths Paper 1 (Arithmetic)

Example 1 mark questions:

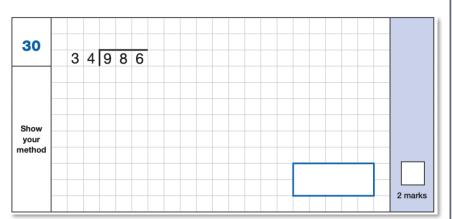

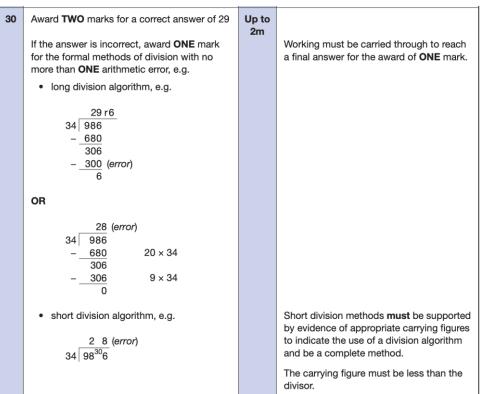

Maths Paper 1 (Arithmetic)

Example 2 mark question:

Maths Papers 2 and 3 (Reasoning)

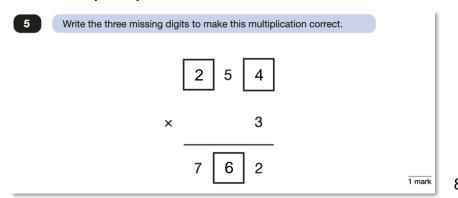

Paper 2 will take place on Wednesday 14th May and paper 3 will take place on Thursday 15th May. These tests have a total of 35 marks each and lasts for 40 minutes each.

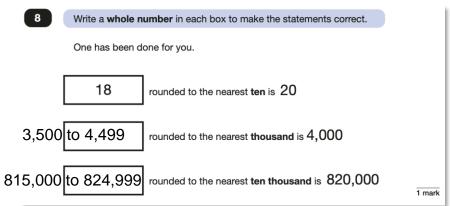

These papers require children to demonstrate their mathematical knowledge and skills, as well as their ability to solve problems and their mathematical reasoning. They cover a wide range of mathematical topics from key stage 2 including,

- Number and place value (including Roman numerals);
- The four operations;
- Geometry (properties of shape, position and direction);
- Statistics;
- Measurement (length, perimeter, mass, volume, time, money);
- Algebra;
- Ratio and proportion;
- Fractions, decimals and percentages.

Maths Papers 2 (Reasoning)

Example questions:

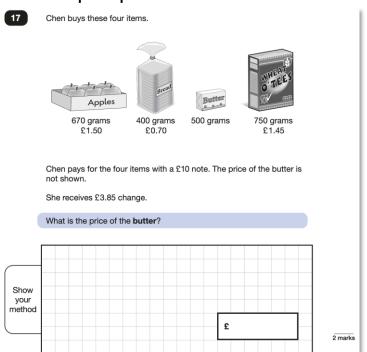

Maths Papers 2 (Reasoning)

Example questions:

Award **TWO** marks for the correct answer of (£)2.50

If the answer is incorrect, award **ONE** mark for evidence of an appropriate complete method which contains no more than **ONE** arithmetic error, e.g.

• £1.50 + £0.70 + £1.45 = £3.65 £10.00 - £3.65 = £6.15 (error) £6.15 - £3.85 = £2.30

OR

• £1.50 + £0.70 + £1.45 + £3.85 = £7.50 £10.00 - £7.50 = £3.50 (error)

If no final answer is given, all calculations within an appropriate method must be evaluated correctly for the award of **ONE** mark, e.g.

• £1.50 + £0.70 + £1.45 = £3.65 £10.00 - £3.65 = £6.35 £6.35 - £3.85 Up to 2m

Accept for **ONE** mark an answer of $\mathfrak{L}250$, $\mathfrak{L}250$ p, $\mathfrak{L}2,50$ or $\mathfrak{L}2.5$ as evidence of an appropriate method.

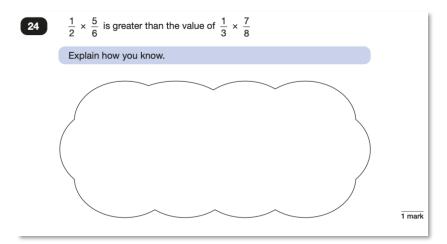

Refer to section 6.1 on pages 14 and 15 for additional guidance on marking answers involving money.

Misreads of £3.85 as £3.65 **OR** miscopies of £3.65 as £3.85 are not allowed.

Maths Papers 3 (Reasoning)

Example questions:

Award ONE mark for an explanation that compares the calculations or relative size of the fractions to indicate relative size of the products, e.g.

- $\frac{1}{3} \times \frac{7}{8} = \frac{7}{24}$

OR

•
$$\frac{10}{24} > \frac{7}{24}$$

1m

Do not accept responses that restate the question.

Do not accept vague, incomplete or incorrect explanations, e.g.

- · the result is bigger because it's a half
- · shows the products without supporting calculations or further proof, e.g.

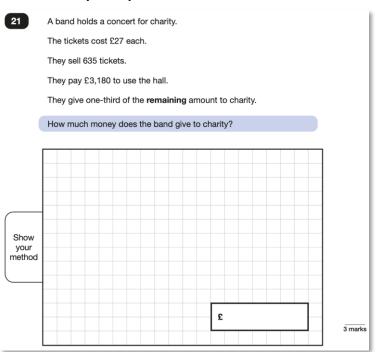

$$\frac{5}{12}$$
 is bigger than $\frac{7}{24}$

Do not accept explanations which include incorrect mathematics or incorrect information that is relevant to the explanation.

Maths Papers 3 (Reasoning)

Example question:

21 Award THREE marks for the correct answer of (£)4,655

Award TWO marks for:

an incorrect answer with evidence of an appropriate complete method with no more than one arithmetic error, e.g.

 625 v. 927 – 917 045 (arred)

 $635 \times £27 = £17,045 (error)$ £17,045 - £3,180 = £13,865 £13,865 ÷ 3 = £4,621.66

OR

for sight of (£)13,965
 (as evidence of two steps completed correctly)

Award **ONE** mark for:

 evidence of an appropriate method with more than one error

OR

sight of (£)17,145
 (as evidence of the multiplication step completed correctly).

Up to 3m

A misread of a number may affect the award of marks. No marks are awarded if there is more than one misread or if the mathematics is simplified.

Any appropriate rounding or truncating of the answer does not negate an appropriate method.

Any answer which does not result from correct rounding or truncating implies an additional step not shown.

TWO marks will be awarded for an appropriate method with the misread number followed through correctly.

ONE mark will be awarded for evidence of an appropriate method using the misread number followed through correctly with no more than one error.

Answer need not be obtained for the award of **ONE** mark.

Supporting your child in preparing for the SATs

Firstly, a positive attitude goes a long way. Give them as much encouragement and support as you can (but we don't need to tell you that)!

Tips:

- Don't use past papers as they are used in school to prepare the children.
- Attend any SATs meetings at school (or read any literature sent home).
- Talk to your child's class teacher if you have any concerns rather than worry your child.
- Encourage your child to talk to their teacher or a trusted adult (including yourself) about their anxieties. Don't forget that a small amount of anxiety is normal and not harmful.
- Give your child a quiet, distraction free space to complete homework or study.
- Give your child time to go outside and reduce screen time.
- Ensure your child is eating and drinking well and getting a good amount of sleep.
- Plan something nice and fun for the weekends before and after SATs. This will help them to relax before the SATs and give them something to look forward to after.

Supporting your child in preparing for the SATs

Further tips:

- Create a revision timetable that works for you and your child. For some families, 10 to 20 minute activities over a few days works best. For others, a longer study session one day a week might be better.
- Keep revision light. Going over key skills (times tables, real world mental maths as you are shopping or cooking) is a good way to keep revision light.
- As we said before, avoid using past papers. There are plenty of free or inexpensive SATs practice materials for parents available.
- If you're looking to support your child further with maths at home, there are lots of good websites with free Year 6 revision resources. Start with thirdspacelearning.com/blog/category/for-parents/ or register free for the Third Space Learning Maths Hub (mathshub.thirdspacelearning.com)

Things to remember about SATs

SATs focus on what children know about Maths and English.

They will not reflect how talented they are at science, geography, art, PE..., and they certainly won't highlight all their amazing personal characteristics.

SATs don't tell the whole story.

Their results will say if they did or did not meet a certain standard but not necessarily by what margin. These thresholds change each year according to the overall national performance, so what was classed as 'meeting the expected standard' this year might not be the same as last year. Your school may be able to provide you with more detailed feedback.

SATs are only four days out of a whole Primary School career.

In reality, there's one or two papers each day that last 30 to 60 minutes.

What to do if you are worried about your child

SATs often induce a certain degree of worry or anxiety but there is, of course, a tipping point.

SATs anxiety should not:

- Affect a child's appetite
- Affect a child's sleep
- Affect a child's personality
- Induce panic, tears or disengagement from lessons or hobbies
- Be a reason not to attend school.

If any of the above are evident, SATs may be causing an excessive degree of anxiety and may benefit from some additional support. This isn't about removing the reality of SATs but rather equipping your 10 or 11 year old with the ability to better cope with the situation.

What to do if you are worried about your child

Talk to the school

Sometimes concerns present at home and not at school. If you notice a change in your child, talk to the school so that everyone concerned can offer the support needed.

Talk to your child

Talk to your child about what aspect of SATs concerns them the most. If you can help them pinpoint what is bothering them the most, you can take specific steps to help reassure them.

Encourage your child to talk to their teacher

SATs are obviously linked to school. Don't be surprised if your child would prefer to seek reassurance from teachers over family members.

Try not to project your own anxieties or views about the SATs

Children can be very intuitive. If they see that you are anxious, this could add to their own anxieties. Similarly, if you don't believe in SATs, your child may reflect this view.

Advice for Year 6 children

- Listen to your teacher.
- The adults you work with all want you to do your best.
- Get plenty of sleep and eat well, this will help your brain.
- Read all the questions carefully. This can help you to avoid silly mistakes.
- Don't panic. There may be questions you think you can't answer. Take a deep breath.
 Read it again. You can always move on and go back to it later. It's often better to write something rather than nothing.
- Remember that the Year 6 SATs last for 4 days out of your whole life!

"Stay focused in class so you don't have loads of extra studying to do at home!" – Year 7 pupil's advice.

Do you have a group of pupils who need a boost in maths this term?

Each pupil could receive a personalised lesson every week from our specialist 1-to-1 maths tutors.
